Jitsi – im Browser

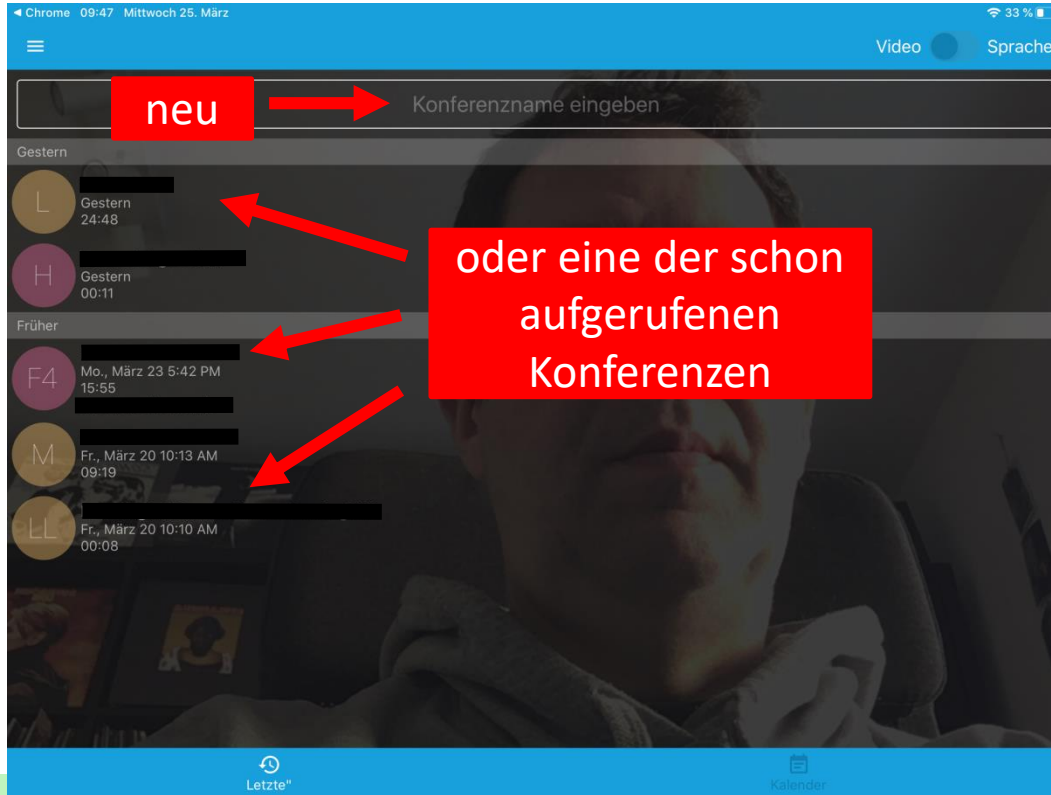

The screenshot shows the Jitsi website homepage. At the top left is the Jitsi logo. To its right are navigation links: "Start a Call", "FAQ", "Downloads", and "Community Forum". Below these are "Home", "What is Jitsi?", "Jitsi Projects", "News", "The Community", and "Built on Jitsi". A blue banner below the navigation contains the text "BLOG: You can help! Deploy your own Jitsi Meet Instance now. Read More". The main content area features the heading "Multi-platform open-source video conferencing" and a sub-heading "At Jitsi, we believe every video chat should look and sound amazing, between two people or 200. Whether you want to build your own massively multi-user video conference client, or use ours, all our tools are 100% free, open source, and WebRTC compatible." Below this text is a video player showing a meeting in progress. At the bottom right of the main content area is an orange button labeled "START A CALL".

The screenshot shows the "Start a new meeting" form on the Jitsi website. The form has a blue header with the text "Secure, fully featured, and completely free video conferencing". Below the header is a paragraph: "Go ahead, video chat with the whole team. In fact, invite everyone you know. Jitsi Meet is a fully encrypted, 100% open source video conferencing solution that you can use all day, every day, for free — with no account needed." The form itself is white and contains the text "Start a new meeting" and "TidyHonestiesAlertEfficiently". To the right of the form is a blue button labeled "GO". A red circle with the number 2 is positioned above the form, and a red circle with the number 3 is positioned above the "GO" button. Red arrows point from the number 2 to the form and from the number 3 to the "GO" button.
